PRESIDENT'S LETTER/BACKGROUND

October 24, 2013

Toni Preckwinkle
President
Cook County Board of Commissioners
118 N. Clark Street, Room 500
Chicago, IL 60602

Dear President Preckwinkle:

It is with pleasure that I submit to you the Fiscal Year 2014 Budget for my Office.

I believe this budget shows that my office continues to demonstrate fiscal discipline by creating a leaner and more efficient operation without overburdening taxpayers. This will be the 13th straight year that we cut the taxpayer-funded portion of our budget, which we achieve by position reductions made possible through automation efforts.

I also want to take this opportunity to thank you and the other real estate tax offices for collaborating to develop projects that improve Cook County's property tax system. Our mutual efforts will help build a streamlined and even more efficient property tax system in the future.

Here are some highlights of the FY2014 budget for the Treasurer's Office:

- Our 060 corporate budget falls from $3,906,208 to $1,952,814, a 50 percent decrease in money from tax revenues.
- Our headcount falls to ninety-two (92), and is now 13.2 fewer FTE's than in FY2013 – and 63.2 percent less than the 250 employees the Office had in 1998.
- In 1998 the Office's $10.6 million budget was all "corporate," money from taxpayers. Today, more than two-thirds of our total budget comes from commercial users of our services.
- The 534 Account uses fees collected from commercial users to upgrade our technology, enhance internal systems and further streamline the Office.
- Since its inception, the 534 Account has helped the County save $151 million in tax money.

Because of our ongoing technological improvements, we continue to make corporate and personnel cuts without compromising service. In fact, we will improve our service – and continue to coordinate with the other real estate offices on improving the entire property tax system.

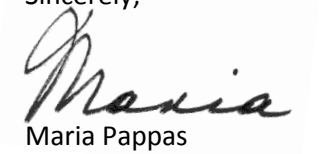
The major office project for FY2014 is the Comprehensive Scanning and Document Imaging Initiative. We intend to eliminate physical paper coming to the Office and from within the Office by installing systems for scanning, imaging and electronic work flow. The goal is to have all documents stored on hard drives instead of thousands of boxes sitting on the shelves at the Rockwell Warehouse.

Other projects we already are working on or are prepared to begin include:

- Electronic Warrant Book
- Central Repository for Property Tax Identification (PIN) Data
- DDO Web-site Enhancements
- Automation of Bank Reconciliations

I am proud to submit the FY2014 budget for the Treasurer's Office. If you have any questions, please do not hesitate to contact me.

Sincerely,



Maria Pappas
Cook County Treasurer

BACKGROUND

Prior to reviewing the budget of the Treasurer's Office, it is important to understand how it operates with two separate and distinct budgetary accounts:

❶ 060 – County Treasurer Corporate Account
- Funded primarily by taxpayer sources
- FY2014 Budget: $1,952,814

❷ 534 – County Treasurer Tax Sale Automation Account
- Funded by fees/revenues approved by the County Board
- Established by County ordinance on April 6, 1999
- FY2014 Budget: $9,605,533

In recent years, the Treasurer's Office has continually reduced the 060 Corporate Account by shifting to the 534 Automation Account. *Many governmental entities simply raise property taxes instead of creating alternative funding sources and reducing their budgets.*

NOTE: The Treasurer's Office pays the health care, vision, dental, life insurance and pension benefits for employees on the 534 account. The result is a savings of $9.4 million to the County from FY2008 to FY2014.

BACKGROUND – EMPLOYEE COMPENSATION HISTORY

GRADE	STEP	Salary of an Employee in FY1998	Salary of same Employee in FY2014 (after COLAs)	INCREASE (over FY1998)	% of INCREASE (over FY1998)

Section B

FY2014 BUDGET HIGHLIGHTS

FY2014 BUDGET HIGHLIGHT 1: REDUCE CORPORATE BUDGET

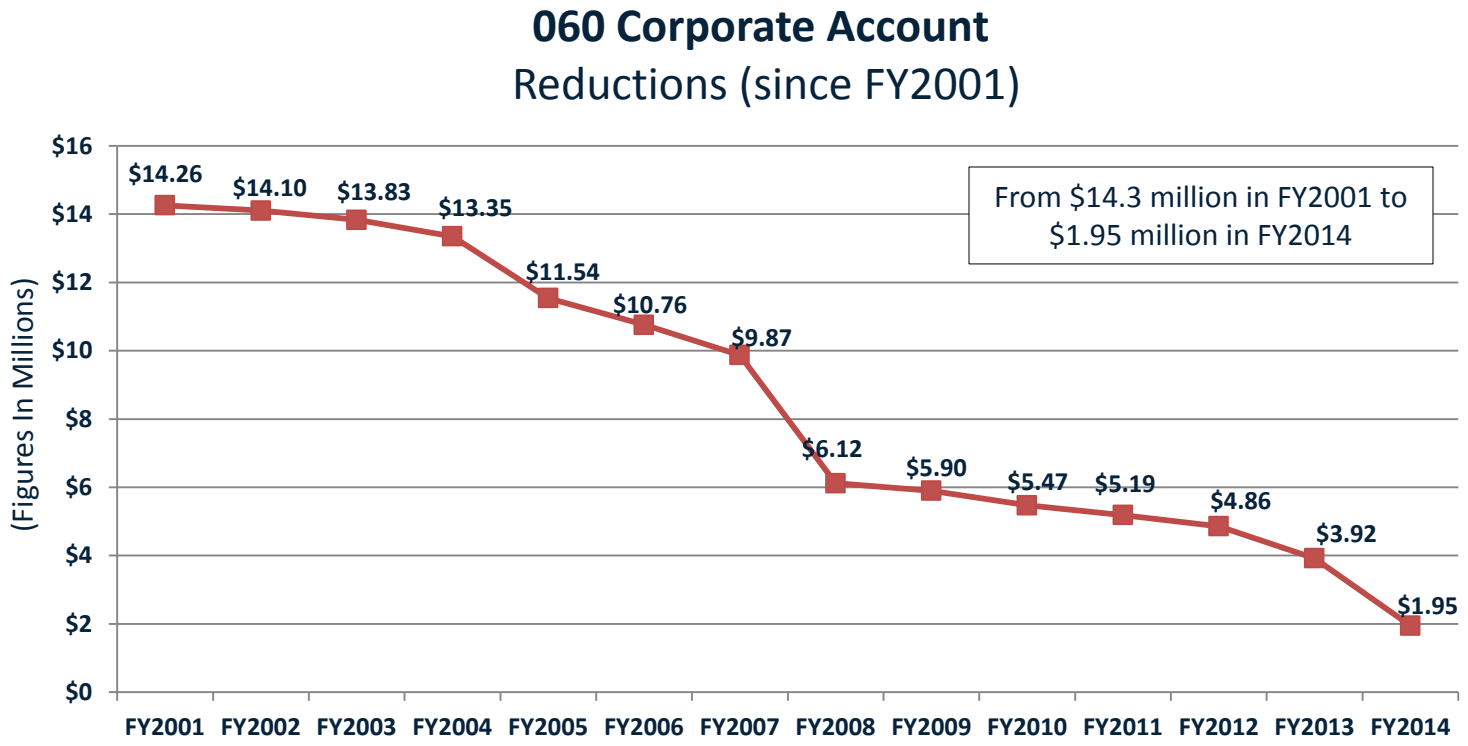
1) Reduce Corporate Budget

FY2014 marks the 13th consecutive year that the request for 060 Corporate Account excluding fringe benefits has been reduced.

The Treasurer's Office achieves a 50 percent cut by reducing the 060 Corporate Account by $1,953,394.

- From $3,906,208 in FY2013 to $1,952,814 in FY2014

The savings is attributed to the County picking up postage costs and eliminating positions on the account.

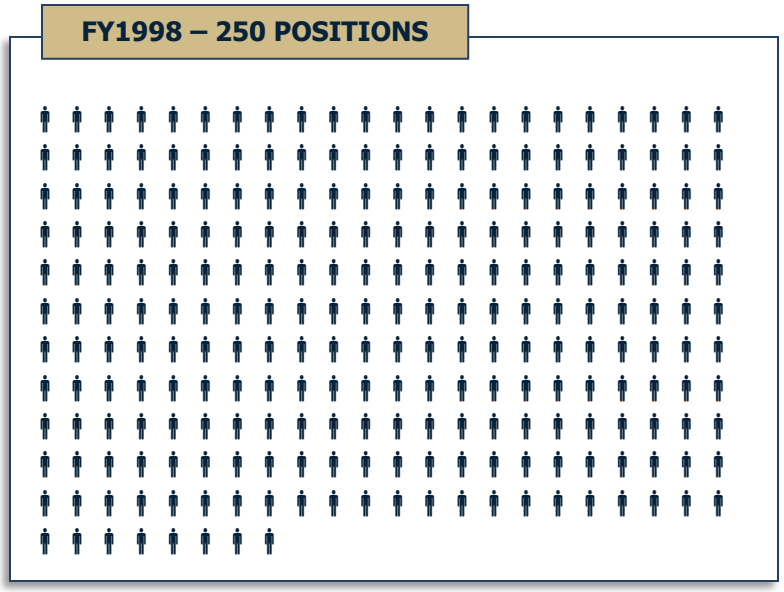


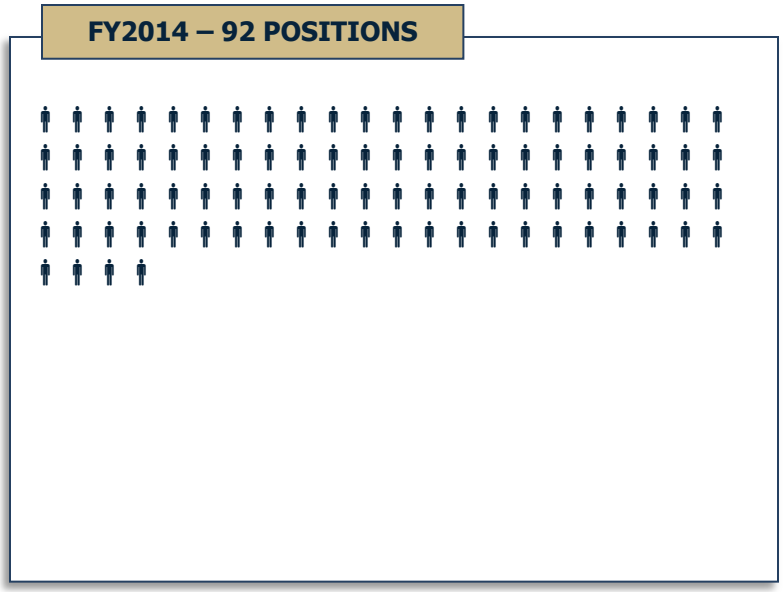
FY2014 BUDGET HIGHLIGHT 2: REDUCE HEADCOUNT

2) Reduce Headcount

Headcount has gone from 250 positions in FY1998 to 92 in FY2014, a reduction of 63.2 percent.

- Reductions in staff have occurred through elimination of vacant positions, through attrition and automation of services.
- Recruited and hired specialized professional employees in Information Technology, Finance and Legal departments.
- Conducted office-wide training to focus on the most important topics, processes and procedures. Continued to cross-train in all departments.





FY2014 BUDGET HIGHLIGHT 3: ENHANCE REVENUES

3) Enhance Revenues

The Treasurer's Office is projecting to generate $81 million in revenue for FY2013, or $5 million more, than the Revenue Estimate of $76 million.

Historic Revenue Figures

	Penalties on Delinquent Taxes	Interest on Investments	Inheritance Tax Commissions	Special Fees	One-Time Revenue Items	Indemnity Fund	TOTAL
FY2013						**Projected Total:**	**$81.0**
FY2012	$82.0	$0.1	$7.3	$0.8			**$90.2**
FY2011	$74.6	$0.1	$0.4	$0.1			**$75.2**
FY2010	$86.0	$0.1	$7.7	$0.5			**$94.3**
FY2009	$71.2	$0.1	$8.5	$0.1			**$79.9**
FY2008	$69.9	$0.8	$11.8	$0.2			**$82.7**
FY2007	$44.4	$1.4	$8.4	$0.2			**$54.4**
FY2006	$51.3	$1.2	$8.1	$0.3		$9.4	**$70.3**
FY2005	$43.6	$0.6	$7.9	$0.3		$1.6	**$54.0**
FY2004	$36.9	$0.2	$7.6	$0.4			**$45.1**
FY2003	$39.2	$0.1	$6.7	$0.7			**$46.7**
FY2002	$36.1	$1.1	$8.6	$0.7			**$46.5**
FY2001	$33.9	$5.5	$8.6	$0.5	$45.3		**$93.8**
FY2000	$35.4	$4.5	$16.3	$1.0			**$57.2**
FY1999	$30.3	$3.9	$15.1	$1.0			**$50.3**
***FY1998**	$27.6	$3.8	$6.2				**$37.6**

*Previous Administration

NOTE: All figures listed in millions.

REVENUE DESCRIPTIONS

Penalties on Delinquent Taxes – Consists of penalties collected on late property tax payments. All properties upon which taxes remain unpaid are deemed delinquent and bear interest at the rate of 1.5% per month.

Interest on Investments – Consists of interest earned on estate of heir collections, inheritance-tax commissions, special fees, escrow accounts and penalties on delinquent taxes.

Inheritance Tax Commission – Consists of a 6% commission on Inheritance Tax money collected by the Treasurer for the State of Illinois. As of July 1, 2012, the Treasurer no longer collects inheritance taxes due to a law signed on June 30, 2012.

Special Fees – Consists of miscellaneous fees collected by the Treasurer which include duplicate bills, proof of payment, microfiche, microfilm, Scavenger Sale registration, Scavenger Sale listing, Annual Sale listings, FOIA, etc., that are authorized by the Cook County Board.

Indemnity Fund – Is held to satisfy judgments contained against the County Treasurer, as trustee of the fund.

FY2014 BUDGET HIGHLIGHT 4: FURTHER SELF-FUNDING

4) Become Further Self-Funded

- The office continues moving toward being self-funded by relying less on taxpayer funding on the 060 corporate account and more on user-based revenues, approved by the Board, to fund the 534 automation account.
- The following revenues allow us to further enhance the automation of our operations, thus saving money and streamlining processes for both commercial users and individual taxpayers:

Revenue Source	Amount	Fiscal Year 2013*
Commercial Payor Duplicate Bill	$5	$ 8,053,434
Electronic Payment Fee	$1	$ 1,545,542
Tax Sale Automation	$10	$ 142,501
Bulk Payment Correction	$50	$ 40,200
Research	$50	$ 500
TOTAL OF SELF-FUNDED REVENUES		**$ 9,782,177**
*Through September 30, 2013.		

FY2014 BUDGET HIGHLIGHT 5: PROJECTS

5) Projects

- In FY2014, the Treasurer's Office will continue its countywide commitment for additional projects aimed at improving the entire property tax system.

- The major office project for FY2014 is the Comprehensive Scanning and Document Imaging Initiative. The intent is to eliminate physical paper coming to the office and from within the office by installing systems for scanning, imaging and electronic work flow. The goal is to have all documents stored on hard drives instead of thousands of boxes sitting on the shelves at the Rockwell Warehouse.

- The creation of the Electronic Warrant Book is another project for FY2014. We are already working with the Clerk's Office on this project designed to replace the physical Warrant Books located on the 4th Floor and 3M with an electronic system. All PIN-related transactions will be posted on a daily basis automatically, thereby eliminating the need for manual postings.

Other projects include:

- Central Repository for Property Tax Identification (PIN) Data
- DDO Web Site Enhancements
- Automation of Bank Reconciliations
- Property Tax Portal (Phase 3)

Section D

TOP 10 OFFICE ACCOMPLISHMENTS

TOP 10 OFFICE ACCOMPLISHMENTS

❶ Automation/Information Technology – Major Projects

The Treasurer's Office will continue its countywide commitment to automation in FY2014. Last year, CCTO provided $1.4 million to the Bureau of Technology to fund projects aimed at improving the entire property tax system, including:

- Property Tax Portal (Phase 2)
- Electronic Warrant Book (Phase 1)
- Automate Reconciliations

Major projects in FY2014 include:

- Comprehensive Scanning and Document Imaging Initiative
- Electronic Warrant Book

❷ Debt Disclosure Ordinance – Transparency in Government

The Debt Disclosure Ordinance, initiated by the Cook County Treasurer and passed by the Cook County Board, requires every local taxing district to annually submit an electronic copy of the agency's most recent financial statement, debts/liabilities, gross tax levy, revenue, pension liability and unfunded pension liability. Visit cookcountytreasurer.com to review this financial information.

TOP 10 OFFICE ACCOMPLISHMENTS

❸ Taxpayer Convenience – Payments

Three alternative methods of paying Cook County property taxes:

- Some 400 Chase Branches accept Cook County property tax payments. These Chase locations have collected over 7.2 million payments. Nearly 10.2 million property tax payments have been made at bank-branch locations including those made at the previous branch provider.
- Online Payments – over 2.3 million property tax payments made online.
- Community Banking Program – 194 bank branches participated in the last installment.

❹ Web Site – cookcountytreasurer.com

Nearly 37.7 million (almost 325,000 per month) visitors have used this state-of-the-art system since February 2004 to:

- Check payment status, search for a refund and check 3-year exemption history.
- Download forms, applications and brochures.
- Access taxing agency debt disclosure information.

❺ Automated Phone System – English • Spanish • Polish – 312.443.5100

Nearly 4.1 million (over 40,000 per month) calls received since the implementation of the Automated Phone System (August 2003) to:

- Check payment status and search for a refund.
- Receive important frequently updated information about the property tax system.

TOP 10 OFFICE ACCOMPLISHMENTS

❻ E-Mail System – Customer Relationship Management System

Over 120,000 e-mails answered through this system by 30-40 employees in the Office who have been trained on the system, Customer Service and various research systems.

❼ Budget – Fiscal Responsibility

Submitted annual budgets for the 060 County Treasurer budget below the previous year, for 13 consecutive budgets beginning in FY2002 with a 1.1% reduction, followed by reductions of 1.9%, 3.5%, 3.2%, 6.8%, 8.3%, 34.8%, 6.8%, 7.2%, 5.2%, 6.5% and 19.4%. The FY2014 proposed corporate budget features a 50% reduction. Beginning in FY2008, reductions are due primarily to shifting the burden from the Corporate, taxpayer-funded 060 Corporate Account to the 534 County Treasurer – Automation Account, which is funded through fees collected by the Treasurer's Office.

❽ Reduction in Staff

Reduced staff by 158 positions, a decrease of 63.2%. (FY1998 – 250 positions to FY2014 – 92 positions.) This reduction occurred through automation, attrition, reduction in staff and closing five satellite offices. Note: Upon taking office, recruited and hired specialized professional-level employees.

TOP 10 OFFICE ACCOMPLISHMENTS

❾ Web-based Systems for Third Parties

- Nearly 15 million payments totaling over $39 billion have been made using the Third Party Agent (TPA) Program since the implementation of the system in September 2003.
- Subsequent Tax Electronic Payment System (STEPS) allows Annual Tax Buyers to pay subsequent general taxes online through an ACH debit. Over 253,000 payments have been made since the system was implemented on December 17, 2007.
- Real-Time TPA System (RTS) allows banks, mortgage and title companies to pay general property taxes online through an ACH debit and receive an instant receipt. Over 480,000 payments have been made since the system was implemented on February 4, 2008.
- Designed Online Taxing Agency Extranet, which provides an informational site for communication with taxing agencies.
- Implemented an Automated Tax Sale to replace the traditional outcry auction. Previously, the sale would take one month but now takes only four days.

❿ Informational Brochures

Informational brochures are currently available in English and 23 languages: Albanian, Arabic, Assyrian, Bulgarian, Chinese, Croatian, Czech, German, Greek, Hindi, Italian, Japanese, Korean, Lithuanian, Polish, Romanian, Russian, Serbian, Slovakian, Spanish, Thai, Ukrainian and Urdu. These brochures have been downloaded nearly 460,000 times from the web site since 2006. New informational brochures were introduced during FY2013.

Section E

FY2014-FY2016 PROJECTS

FY2014-FY2016 PROJECTS

Name of Project:	Comprehensive Scanning and Document Imaging Initiative
Description of Project:	Implement document management systems to store documents in electronic folders that can be indexed by multiple pieces of information, giving users the ability to search and retrieve documents based upon different criteria. Create e-Forms for users to enter data and submit electronically; process will eliminate paper forms/applications.
Benefit(s) of Project:	• Reduce time spent managing documents by controlling the life cycle of documents in CCTO — How they are created, used, and published, and how they are ultimately disposed of or retained. • Decrease processing time for taxpayer requests with electronic data feeds. • Eliminate requirement of storing documents at Rockwell warehouse.

Name of Project:	Electronic Warrant Book
Description of Project:	Create an Electronic Warrant Book to serves as the official county property tax records by replacing the antiquated books currently in use. Project will create an entire electronic book for TY2012 and future years and create a hybrid electronic record for prior years that combines imaging of those books with posting of any subsequent transactions electronically. Project is a collaborative effort with the Clerk's Office.
Benefit(s) of Project:	• Eliminate the necessity for manual postings of transactions which occur after book are printed each year. • Improve accuracy by eliminating the potential for manual mis-postings. • New transactions will be added on a daily basis.

Name of Project:	Integrated Property Tax System – Central Repository for Property Tax Identification (PIN) Data
Description of Project:	CCTO supports the President's initiative to replace the MIS Mainframe with an integrated property tax system to be used by all of the property tax offices.
Benefit(s) of Project:	• Eliminates the antiquated MIS Mainframe, and its limited functionality. • Combine all data for each parcel into one unified system. • Will be updated in real time instead of nightly batch jobs.

Name of Project:	DDO Web Site Enhancements
Description of Project:	Add functionality and data to the Debt Disclosure Ordinance information for the County's primary taxing agencies available online.
Benefit(s) of Project:	• Improve the display of information accessed by the public. • Where applicable, modify the data input process by taxing agencies.

FY2014-FY2016 PROJECTS

Name of Project:	Automated Bank Reconciliations Through GTreasury
Description of Project:	Purchase Bank Reconciliation Module from GTreasury to automate process of monthly and daily bank reconciliations.
Benefit(s) of Project:	• Reduce time spent on current manual monthly and daily reconciliations in Accounting.

Name of Project:	Automating Manual Check Requests
Description of Project:	Eliminate multiple data entries using workflow.
Benefit(s) of Project:	• Reduce processing time for Accounts Payable.

Name of Project:	JDE Conversion
Description of Project:	Convert the JDE system, used within the county, to a new version.
Benefit(s) of Project:	• Update to the latest version to ensure compliance with the all county departments.

Name of Project:	NSF Batch Processing
Description of Project:	Eliminate the manual data entry of NSF's into MIS through automation efforts.
Benefit(s) of Project:	• Automatically load NSF transactions into MIS instead of through a manual process.

Name of Project:	Issue Refunds via ACH
Description of Project:	Eliminate printing & mailing of refund checks.
Benefit(s) of Project:	• Reduces number of returns due to incorrect address. • Saves paper. • Refunds issued to taxpayers quicker than the USPS.

Name of Project:	Return Check Inventory Tracking
Description of Project:	Eliminate a manual spreadsheet by modifying the JDE AP System so it can track returned checks.
Benefit(s) of Project:	• Eliminate time spent manually entering data. • Reduce human error.

FY2014-FY2016 PROJECTS

Name of Project:	Sales in Error Database Rewrite
Description of Project:	Create a system that allows the user to process a Sale in Error refund from the beginning of the process.
Benefit(s) of Project:	• Eliminate tracking of Vacate Tax Sale component in Excel spreadsheets and double-entry of same information into database. • Eliminate need for employees to access MIS, transcribe payment information, and then re-enter into database to process refund request. • Scavenger Payments and Refunds will post to MIS, thereby making the information available to the county.

Name of Project:	Conversion – Certificate of Error/A Refund Voucher System
Description of Project:	Convert C of E/A Voucher System to .NET from its current unsupported database.
Benefit(s) of Project:	• System will be written in a supported language enabling system issues to be addressed.

Name of Project:	Conversion – Certificate of Error Refund Database
Description of Project:	Convert C of E Database to .NET from its current unsupported database.
Benefit(s) of Project:	• System will be written in a supported language enabling system issues to be addressed.

Name of Project:	Automate the Over-assessment C of E Process
Description of Project:	Automate C of E over-assessments to a similar process as automatic exemption refunds.
Benefit(s) of Project:	• Streamline and increase efficiency by eliminating the manual application and processing requirements currently in place.

Name of Project:	Automate D&O Applications
Description of Project:	Create a system that automatically generates and mail a refund application 30 days after the overpayment is made.
Benefit(s) of Project:	• Process will notify taxpayers to claim their refund quicker; taxpayers does not need to come to the office to request a refund.

Name of Project:	Downloadable Certificate of Error and Property Tax Appeal Board Applications
Description of Project:	Electronically load C of E and PTAB decision information to CCTO's web site which will allow taxpayers and attorneys to download PTAB and C of E pre-filled applications.
Benefit(s) of Project:	• No longer need to print and mail applications.

FY2014-FY2016 PROJECTS

Name of Project:	HR Database Enhancements
Description of Project:	Implement enhancements to the existing internal HR Database application, including additional fields of data and functionality.
Benefit(s) of Project:	• Expand on the existing data captured for employees.

Name of Project:	HR Reporting
Description of Project:	Expand reporting capabilities of the internal system to create functionality for certain users to directly run a report instead of request one from IT.
Benefit(s) of Project:	• Provides a level of self-service to management. • Eliminates the need for requests to be submitted and fulfilled. • Reports available round-the-clock.

Name of Project:	Automatic Time Load into HR Database
Description of Project:	Eliminate the manual process to record swipe times in the HR Database by automating and "pushing" the data directly to the system.
Benefit(s) of Project:	• Allow for fewer steps in processing time and have data directly connected to the database in one step.

Name of Project:	Interactive New Employee Training on Intranet
Description of Project:	Create an interactive video/voice training program that could be uploaded to the intranet. The goal would be to give new employees an understanding of the office and virtual orientation.
Benefit(s) of Project:	• Eliminate the need for manual orientation. • Can be used a reference for existing employees and for refresher training purposes.

Name of Project:	Disaster Recovery
Description of Project:	Provide backup equipment/plan for servers and vital computer equipment if disaster occurs.
Benefit(s) of Project:	• Will prevent interruption of vital services to the public.

Name of Project:	Outsource Tax Bill Printing
Description of Project:	Print bi-annual 1.8 million tax bills offsite instead of printing them internally.
Benefit(s) of Project:	• Streamline and increase efficiency of bill printing process.

FY2014-FY2016 PROJECTS

Name of Project:	Update Individual Online Payment Site
Description of Project:	Create a more robust online payment system that leverages emails, creates taxpayer payment carts, along with adding logic to charge bulk (non-TPA) payers the $ 1.00 enhanced processing fee.
Benefit(s) of Project:	• Improve payment processing systems so taxpayers can pay multiple PINs at the same time. • Improve system design and communication.

Name of Project:	Electronic Feed of Open Item Bill Amounts
Description of Project:	Enhance cashiering system to electronically receive Clerk open-item billing information from MIS so cashiers do not have to manually enter bill amount.
Benefit(s) of Project:	• Reduce cashiering errors. • Eliminate manual entry.

Name of Project:	Collection Alternative – Payment Kiosks
Description of Project:	Seek vendor who can program ATM network to collect property tax payments in an effort to develop additional collection alternatives.
Benefit(s) of Project:	• Provides even more convenience for taxpayers to submit tax payments.

Name of Project:	Refund Check Tracking
Description of Project:	Create tracking system so taxpayers can go online and get refund status updates instead of phoning the call center, sending an e-mail or visiting the office.
Benefit(s) of Project:	• Taxpayers can know exactly what stage their application is in and when they can expect their check to arrive in the mail.

Name of Project:	Name Change File Upload to MIS via Web Site Form
Description of Project:	Add fillable form to web site, use identification verification service, to identify taxpayer, write name change file from web service for daily uploads. Requires legislation.
Benefit(s) of Project:	• Dramatically improves the ease by which a taxpayer or new homeowner can modify their existing name and address on file.

FY2014-FY2016 PROJECTS

Name of Project:	Redacted Payment Images Via the Web
Description of Project:	Cook County Treasurer's Office will create a system to automatically redact personal information from payment images and allow taxpayers to pay and order redacted check images via our web site.
Benefit(s) of Project:	• Eliminates need to have customer service and cashier staff handle image requests. • Reduce staff cost.

Name of Project:	Real-Time Third Party Payment System Enhancement
Description of Project:	Enhance the Real-Time TPA System (RTS) payment site which allows banks, mortgage companies and title companies to pay property taxes online to provide system users the most recent payment commitment information from other third party payers who have already committed to make a tax payment.
Benefit(s) of Project:	• Reduce duplicate payments and resulting refunds that would be required to be issued.

Name of Project:	Streamline Payments from Online Bill Payment Sites
Description of Project:	Create an electronic file of all online bill payments. Use a STOP/verification file to validate the PIN, amount, tax amount, tax year.
Benefit(s) of Project:	• Reduce volume of manual payments required to be researched. • Increases accuracy of payments that otherwise would be sent back to taxpayers for inaccurate or missing information.

Name of Project:	Sale In Error Refund Reduction Project
Description of Project:	Permanently fix scavenger sale issue PINs by addressing main reasons for SIEs and provide proactive plan to reduce/eliminate.
Benefit(s) of Project:	• Reduce the number of Sale-In-Error Refunds necessary for the Treasurer's Office to process.

FY2014-FY2016 PROJECTS

Name of Project:	Tax Buyer Email Electronic Receipts after Annual Sale
Description of Project:	Produce electronic receipts emailed to tax buyers instead of producing paper receipts.
Benefit(s) of Project:	• Eliminates the need for CCTO to print receipts and for tax buyers to physically pickup the receipts.

Name of Project:	Office Wide Bankruptcy Automatic Stay Compliance
Description of Project:	Design and implement a system to prevent unauthorized payments: person in bankruptcy or TPA can pay only current payments: prior payments can be paid only by trustee.
Benefit(s) of Project:	• Adhere to court requirements by preventing payments from non-trustees.

Name of Project:	Combine Taxpayer Correspondence Requests into Unified System
Description of Project:	Replace existing Correspondence Management Database, CRM e-Mail system and Tax Research Systems into an electronic, work-flow driven system that captures images and responses.
Benefit(s) of Project:	• Puts all requests made of the office into one system. • Ensures taxpayer requests are responded to or resolved in a timely manner.

Name of Project:	Annual Security Risk Assessment
Description of Project:	IT's systems, programs and infrastructure to undergo an annual risk assessment by a third party.
Benefit(s) of Project:	• Ensures latest security measures. • Potential risks are mitigated as identified.

Name of Project:	Mobile Application Development
Description of Project:	Develop mobile site/mobile application based on current regular CCTO Main web site.
Benefit(s) of Project:	• Using GPS technology, will allow users to see closest payment locations. • Access to information on our web site conforms to a smart phone or tablet.

Name of Project:	Server 2012
Description of Project:	Upgrade to Server 2012 to help virtualization, networking, storage, and cloud computing.
Benefit(s) of Project:	• Keep data stored on servers secure and accessible.

FY2014-FY2016 PROJECTS

Name of Project:	SQL 2012
Description of Project:	Upgrade to SQL 2012 to better manage and protect data.
Benefit(s) of Project:	• Keep data stored on servers secure and accessible according to data queries.

Name of Project:	D&O System Rewrite
Description of Project:	Rewrite the current D&O System in the latest .NET environment.
Benefit(s) of Project:	• Utilize workflow and imaging to aid in the proofing decision. • Add enhancements as required and identified by Refund Department.

Name of Project:	PIN Research - Enhancements
Description of Project:	PIN Research was re-launched in 2013, and there is even more functionality and data users would like to see within the application.

Benefit(s) of Project:	• Add the following:
	  • C of E type, status, reason
	  • 20-year history screen (complete with Tax Amount, AV, EAV, Tax Rate and Classification)
	  • Build-in functionality to print a duplicate tax bill, and track stats for the same process
	  • Expand 'Notes' function to include categories and attachments such as screen shots

Name of Project:	Data Dictionary
Description of Project:	Created dictionary/index of all data related to property taxes used by our systems.
Benefit(s) of Project:	• Beneficial in the creation/modification of systems going forward as it will be easier to identify what data we already have in a table or if we need to create a new data source.

FY2014-FY2016 PROJECTS

Name of Project:	Exchange 2013 Implementation
Description of Project:	Converting existing mail system to Exchange Server 2013.
Benefit(s) of Project:	• Improve performance and reliability. • Virtualized for improved value. • Enhance unified communications. • Improve redundancy and reliability.

Name of Project:	MIS Knowledge Transfer
Description of Project:	Document existing TR Run-A-Job jobs spreadsheet that MIS runs for the Treasurer's office for the various office activities.
Benefit(s) of Project:	• Provide information about the MIS programs and their functionality, in case the programs may need to be rewritten in another language. • Provide the overall CCTO business process flow that MIS programs are a part of so that this is better understood and can be improved.

Name of Project:	SharePoint 2010 Upgrade
Description of Project:	Upgrade existing SharePoint Infrastructure to SharePoint 2010.
Benefit(s) of Project:	• Improve search capabilities. • Improve indexing capabilities. • Improve performance. • Improve reliability. • Virtualize for improved value.

Name of Project:	Hyper-V Server Virtualization and Consolidation
Description of Project:	Convert physical servers to clustered Hyper-V virtualized servers.
Benefit(s) of Project:	• Reduced number of physical servers. • Hardware Independence. • Improved resource utilization.

Section F

FY2013 PROJECTS

FY2013 PROJECTS

Name of Project:	Reporting Systems (JDE and Refunds Reports)
Description of Project:	Expand reporting functionality for users to create and run reports from data contained within JDE and Refunds.
Benefit(s) of Project:	• Allowed certain users with requisite access the ability to run reports without IT involvement.

Name of Project:	Redesign Treasurer's Intranet Site
Description of Project:	Update and redesign internal portal site utilized by employees within the office.
Benefit(s) of Project:	• Improved accessibility to most commonly used internal applications. • Created SharePoint site to hold user manuals, templates and forms. • Updated to latest version .NET for increased reliability.

Name of Project:	Internal Application Rewrite/Upgrade
Description of Project:	Updating all internal applications (programs) to latest .NET environment. Also involves stabilizing the SQL data components to latest SQL 2008. Over 25 internal applications were included in the project.
Benefit(s) of Project:	• All internal applications have same look and feel. • Internal application accessible through Intranet site. • Programming code stabilized and saved in one central development location.

Name of Project:	Property Tax Portal (Phase 2)
Description of Project:	Expand functionality and access to information and data on the consolidated Cook County Property Tax Portal.

Benefit(s) of Project:	• Provided easy access to geographical information (GIS).
	• Integrated software in compliance with the Americans with Disabilities Act.
	• Provided a 'Google'-like search function.
	• Added a suggestion box to capture comments and ideas from users.
	• Added information such as:
	  ○ 4-year assessed value history
	  ○ Property class code and description
	  ○ Redeemed or forfeited indicators
	  ○ Exempt or Divided PIN identification

FY2013 PROJECTS

Name of Project:	Third-Party Agent (TPA) System Rewrite and Creation of TPA Administrative Site
Description of Project:	Updated the TPA System to .NET and introduced a number of enhancements for bulk commercial users like banks, mortgage and title companies to commit and pay on PINs. Also created a brand-new TPA Administrative Site to internally manage the data linked to the TPA site.
Benefit(s) of Project:	• Updated the display of the TPA System so it has the same look and feel as CCTO's other sites. • Separated functions for uploading a file of PINs and manually loading a single PIN. • Streamlined Account Management functions. • Addition of navigation controls and functions, such as "Forgot My Password" function, calendar displays and automatic tax year entry.

Name of Project:	Online Penalty Amounts on Payment Status
Description of Project:	Update the CCTO web site to better display for users the amount of penalty in addition to tax due. Will reduce calls/emails requesting penalty amounts.
Benefit(s) of Project:	• Improved presentation and functionality on CCTO web site.

Name of Project:	STOPS Enhancement - Prior Year Online Payment
Description of Project:	Prevents taxpayers from paying current year's taxes when prior year is open. Reduces transfers and possible sale-in-errors.
Benefit(s) of Project:	• Reduced transfers and possible sale-in-errors.

Name of Project:	Web Bill Ordering Redesign
Description of Project:	Update functionality for users wishing to order a duplicate bill from CCTO web site. Will reduce calls/emails requesting dup bill.
Benefit(s) of Project:	• Reduced calls/emails requesting duplicate bill. • Improved presentation and functionality on CCTO web site.

FY2013 PROJECTS

Name of Project:	Intelligent Mail Bar Code
Description of Project:	Update tax bill coupon barcode as required by the US Postal Service to receive lowest automation rates.
Benefit(s) of Project:	• Received lowest automation rates and stay compliant with US Postal Service regulations.

Name of Project:	New Informational Brochures
Description of Project:	Treasurer's Office produced new informational brochures in print and online to provide important property tax information to taxpayers. Brochure subjects are Property Tax Payment Guide, Saving Your Money, Read Your Bill: Tracking Your Tax Dollars, and New Homeowner Guide.
Benefit(s) of Project:	• Subjects of brochures targeted to address the questions most frequently asked by property owners.

Name of Project:	Tax Bill Data - First Installment Bills Contain Debt Disclosure Ordinance (DDO) Information
Description of Project:	Included DDO figures on each First Installment property tax bill instead of the usual message in the body of the bill.
Benefit(s) of Project:	• Provided useful information directly to taxpayers by including on the body of the property tax bill.

Name of Project:	Tax Bill Redesign - Second Installment Tax Bills
Description of Project:	Beginning with the 2012 Second Installment Property Tax Bills, bills are in 8 ½ X 14 size.
Benefit(s) of Project:	• Provided more organized display of data. • Important messages consolidated in one area. • Costs remain the same to mail.

Name of Project:	Implemented Sunset Exemption
Description of Project:	Included the new Sunset Exemption within internal systems, including the Electronic Tax Bill Testing Tool.
Benefit(s) of Project:	• Provided tools to answer taxpayer's questions regarding the new exemption. • Ensured that 2012 Second Installment Property Tax Bills contain the proper message and amounts.

FY2013 PROJECTS

Name of Project:	Electronic Property Tax Appeal Board (PTAB) File Upload
Description of Project:	Received electronic data file from PTAB and load automatically into MIS Mainframe Database.
Benefit(s) of Project:	• Eliminated manual data entry. • Eliminated possible data entry errors.

Name of Project:	Redesign/Enhance Internal PIN Research System
Description of Project:	Updated internal PIN Research to .NET and add enhancements to increase functionality. This system combines PIN-level data into one program so that a simple search results in comprehensive information for each of the 1.8 million parcels in Cook County.
Benefit(s) of Project:	• Stabilized programming code to .NET. • Improved functionality and navigation to return results faster. • Created a PIN Summary screen that provides a comprehensive 20-year snap shot, with the ability to drill-down to any year desired.

Name of Project:	Document Imaging and Management System for Legal
Description of Project:	System allowed Legal Department to store, search and retrieve electronic image files of applicable documents instead of keeping paper copies of everything.
Benefit(s) of Project:	• Save time locating, using and updating documents vital for business research, legal research, and litigation support.

Name of Project:	IT Security Risk Assessment
Description of Project:	The IT Security Risk Assessment was conducted in two phases: an external vulnerability scan and an internal vulnerability scan. • The external included an examination and monitoring of the CCTO main web site, servers, all switches and routers, and production applications including our databases. • The internal vulnerability scan included a system security assessment that identifies known vulnerabilities, such as backdoors, security patch levels, file permissions, registry permissions, the operating systems and web server configurations. It also included database vulnerability testing and application vulnerability testing.
Benefit(s) of Project:	• Identified known vulnerabilities. • Identified potential security weaknesses in application design and implementation. • Identified Internal Network vulnerabilities. • Remediated items as necessary.

FY2013 PROJECTS

Name of Project:	Electronic Reconciliation of Collections
Description of Project:	Created a daily collection reconciliation report that consolidates figures from a variety of sources.
Benefit(s) of Project:	• Eliminated the manual process of seeking data and entering on a spreadsheet to reconcile figures. • Implementation resulted in a reduction of staff within the Finance Department.

Name of Project:	POS Enhancements
Description of Project:	Working with bank branch vendor Chase Bank to introduce enhancements including a 7-day-a-week STOPS file so that duplicate and overpayments are stopped daily.
Benefit(s) of Project:	• Decreased the number of refunds required to processed by CCTO. • Improved bank branch payment process for taxpayers.

Name of Project:	Transitioned Vault Functions to Operations Department
Description of Project:	Vault functions assigned to the Operations Department.
Benefit(s) of Project:	• Trained Operations employees to carry out duties for greater efficiency.

Name of Project:	Implementation of the Commercial Payor Enhanced Payment Processing Fee
Description of Project:	Pursuant to Ordinance 13-0-12, implemented the Enhanced Payment Processing Fee collected from commercial payers such as banks or mortgage companies.
Benefit(s) of Project:	• Allowed for additional funding source of automation efforts, especially as they pertain to improvements and enhancements to bulk payment processing systems.

Name of Project:	Automated Transmission Process
Description of Project:	Analysis of automated controls policy and review of transmissions process.
Benefit(s) of Project:	• Streamlined a batch process and eliminated a manual intervention.

Name of Project:	Conversion - Special Assessment Database System
Description of Project:	Converted SA to .NET from its current unsupported database.
Benefit(s) of Project:	• Updated to latest supported technology. • Improved the process by implementing enhancements.

FY2013 PROJECTS

Name of Project:	Conversion - Taxing Agency Extranet (TAE Web Site)
Description of Project:	Updated site from current PHP language to .NET and add enhancements.
Benefit(s) of Project:	• Improved customer service capabilities that CCTO provides to taxing agencies. • Improved reporting capabilities for taxing agencies as well as CCTO users. • Reduction in staff time spent on taxing agency inquiries.

Name of Project:	Conversion and Enhancement of Bankruptcy Database System
Description of Project:	Converted Bankruptcy to .NET from its current database and add enhancements.
Benefit(s) of Project:	• Improved the internal management of bankruptcy cases. • Easier flagging of systems when bankruptcies are filed and dismissed.

Name of Project:	Internet Information Services Upgrade
Description of Project:	Upgraded Internet Information Services to IIS 7.5 on Web Servers internally and at Server Central.
Benefit(s) of Project:	• Improved performance and reliability.

Name of Project:	Upgrade of Content Management System (CMS)
Description of Project:	CMS allows for changes and additions of text on the CCTO Main web site to be made without a programmer modifying code.
Benefit(s) of Project:	• Quicker updates to the CCTO Main site. • Added the ability to do a global search of a text string.

Section G

AUTOMATION HIGHLIGHTS

AUTOMATION HIGHLIGHTS – PIN RESEARCH (INTERNAL PORTAL)

The PIN Research System is the centerpiece of the Cook County Treasurer's Office. The internal system centralizes various forms of crucial data that otherwise are accessible only via cumbersome stand-alone modules. It underwent a major overhaul in 2013 and the result is that even more data is available electronically to internal users.

By entering a PIN, an employee has access to 20 years of PIN data within one single system. PIN Research eliminates the need for an employee to access up to 14 different programs. The data with the system includes:

- Entire PIN Summary, including mailing address, property address, exemption data, payment overview and photo of the parcel.
- Detailed payment data, which includes the amount paid, date paid, and method of payment.
- All scanned images, including payment coupons and checks, post penalty envelope images (used to verify late-payment according to USPS postmark), Name/Address change applications, and Returned Certified Mail images.
- Refund history.
- STOPS notification (to prevent duplicate payment on a previously paid PIN).
- History of correspondence, sent from taxpayer and sent to taxpayer.

Since 2006, the brochures have been downloaded over 460,000 times.

NOTE: In FY2013, the Treasurer's Office updated the informational brochures and digital online versions.

AUTOMATION HIGHLIGHTS – WEB SITE www.cookcountytreasurer.com

Important Dates

After August 26, 2013, taxpayers who would like information concerning whether their 2011 property taxes were sold at the tax sale and information on how to redeem their taxes must contact the Cook County Clerk's Office at www.cookcountyclerk.com or 312.603.5656. The Clerk's Office is located at: 118 North Clark Street, Room 434, Chicago, IL 60602.

The due date for the Tax Year 2012 First Installment was Friday, March 1, 2013.

The due date for the Tax Year 2012 Second Installment was Thursday, August 1, 2013.

You may pay current Tax Year 2012 at any of the more than 400 Chase Bank locations, by mail or online.

Pamphlets

Listed below are pamphlets in 24 different languages from the Cook County Treasurer's Office which contain useful information for taxpayers.

Pappas: Tax Bills Allow Homeowners to Track Government Spending

Click here for informational video regarding the new tax bill information.

Property owners can now see the financial state of their various local governments that tax them right on their first installment property tax bill, Cook County Treasurer Maria Pappas announced.

On each individual tax bill homeowners will find how much their local governments are in debt, where their taxes are going, how much their local governments spend, and pension obligations both funded and unfunded.

Pappas encourages paying online at cookcountytreasurer.com. Property owners can also pay at more than 400 Chase Bank locations in Chicagoland and at some 200 participating community banks.

AUTOMATION HIGHLIGHTS – WEB SITE www.cookcountytreasurer.com

In 2011, a list of outstanding or uncashed checks issued by the Treasurer's Office was added to the web site.

Taxpayers can search by PIN or by Payee Name to locate an outstanding check and request a reissue.

AUTOMATION HIGHLIGHTS – WEB SITE www.cookcountytreasurer.com

Since 2004, over 36 million visitors have navigated to our web site at www.cookcountytreasurer.com.

AUTOMATION HIGHLIGHTS – DEBT DISCLOSURE ORDINANCE

The Taxing District Debt Disclosure Ordinance approved by the County Board of Commissioners on September 1, 2009 provides extraordinary transparency in government.

The ordinance requires taxing districts to submit audited financial statements from their most recent audit that includes total debts and liabilities, total of gross tax levy, gross operating budget revenue and pension information such as the funded and unfunded amounts.

This ordinance and its amendments:

- Created a single electronic repository which allows taxpayers to electronically access the financial information they need to make informed decisions about the taxing districts they support.
- Mandated the Treasurer's Office to house and maintain the electronic infrastructure where each taxing district uploads its information and makes that information electronically available to taxpayers.

In 2012, the Treasurer’s Office created a virtual online tax bill that allows taxpayers to view the financial information to their associated tax districts based on a PIN.

Taxing Districts' Financial Statements

Taxpayers may conduct a search by Property Index Number (PIN) or Taxing District name to view debt disclosures and/or download any financial statement uploaded by a particular agency. Pursuant to Section 2-243 of the Cook County Code of Ordinances, commonly referred to as the Debt Disclosure Ordinance, primary taxing districts are required to provide their most recent financial statements and make certain other financial disclosures to the Cook County Treasurer's Office, in electronic format, on or before the last Tuesday in December. Please refer to the uploaded taxing district financial statements for additional information regarding the financial disclosures that appear below. If any sub-agencies upload financial information, please be aware that the corresponding primary agency financial information should include sub-agency information. If your taxing districts' financial statements and disclosures do not appear on our Web site, please contact that agency directly for more information.

NOTE: Refer to your Second Installment tax bill for the names of your taxing districts.

AUTOMATION HIGHLIGHTS – PROPERTY TAX PORTAL

The Treasurer's Office managed a project creating the Property Tax Portal for property owners in the County.

The portal is a collaborative effort that allows residents access to information such as:

- Ownership and liens – Provided by the Recorder of Deeds
- Tax payments and refunds – Provided by the Treasurer
- Valuations, exemptions and appeals – Provided by the Assessor
- Prior year tax bill statuses, delinquencies and TIF information – Provided by the Clerk
- Appeals – Provided by the Board of Review

The Treasurer's Office went live with the new web site on April 1, 2012, and completed the project in just 90 days. A second phase of the portal went live on September 5, 2013.

The portal has been visited 2.3 million times, or roughly 4,500 visits each day.

AUTOMATION HIGHLIGHTS – STOPS

STAT FACT:

STOPS was implemented for the 2009 Second Installment property tax collection in an effort to reduce the number of erroneous duplicate and overpayments of property taxes, and thus eliminate the need for taxpayers to apply for a refund.

Since November 2010, over 40,000 duplicate payment attempts have been stopped in the amount of nearly $165 million.

Tax Year/Installment	Quantity	Dollar Amount
2012-02*	6,306	$23,274,486
2012-01	6,203	$29,016,746
2011-02	3,044	$18,967,234
2011-01	3,102	$10,466,248
2010-02	6,028	$24,954,223
2010-01	5,990	$26,584,904
2009-02	9,430	$28,024,221
Total	**40,899**	**$164,796,851**

*Through September 30, 2013

AUTOMATION HIGHLIGHTS – STOPS

The STOPS program is designed to ensure that only the legally responsible party submits payment.

STOPS prevents duplicate and overpayments by flagging screens within each of the four main payment channels:

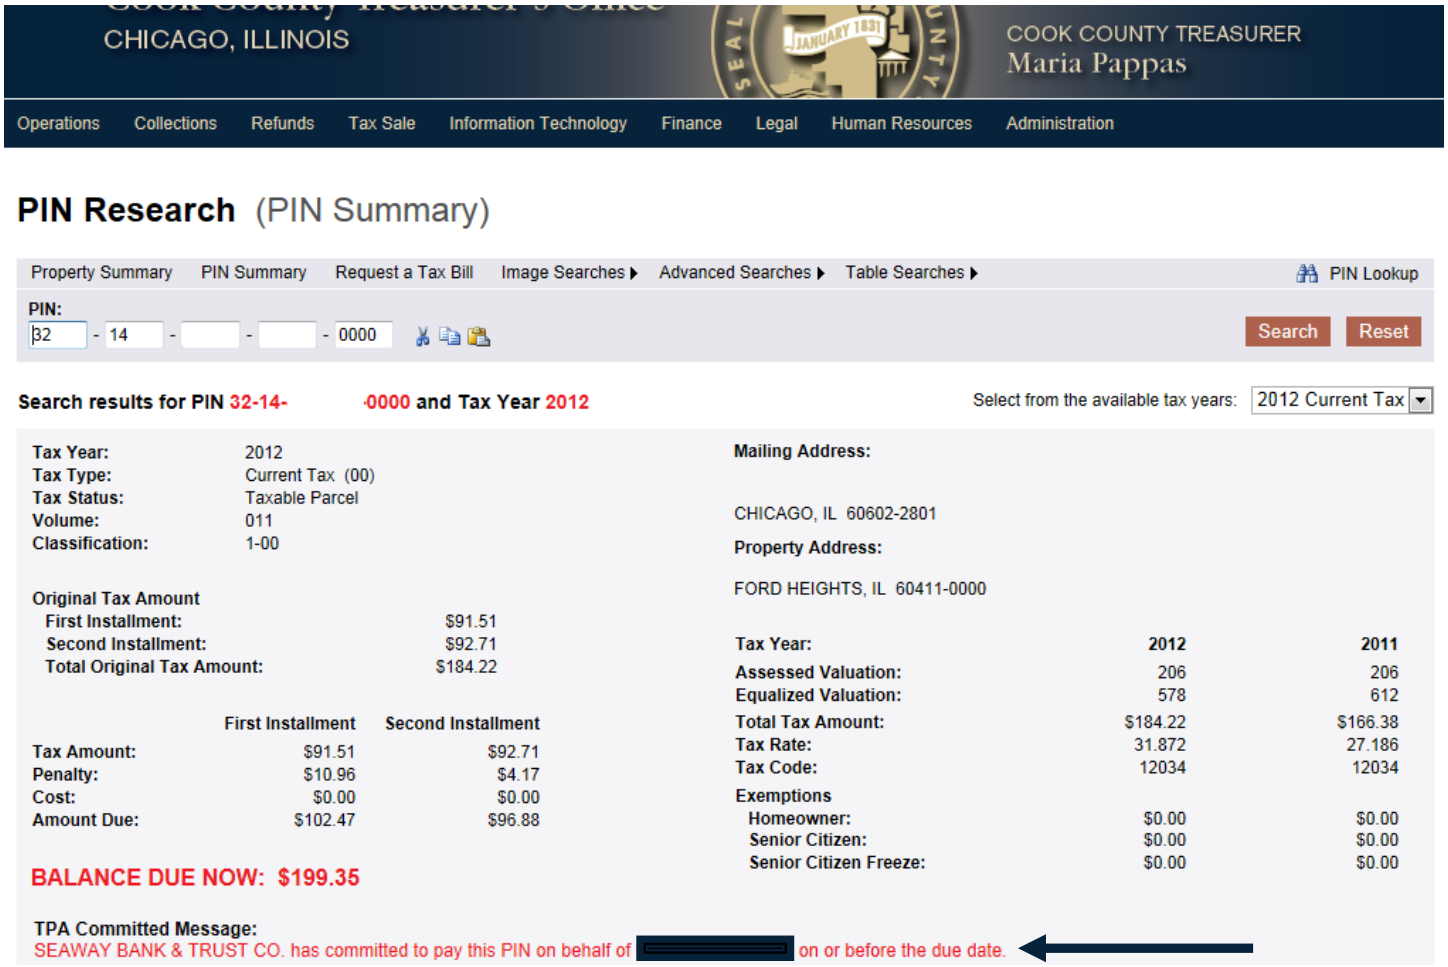
- Third Party Agent (TPA) - Mortgage/Title Company electronic bulk payment site
- Mail (Lockbox)
- Online (e-check and credit card)
- In Person

A payment will be stopped if the taxes have already been paid or a TPA, such as a mortgage company, commits to pay the taxes.

If a payment is stopped, the payer is notified in a letter mailed by the Treasurer's Office. The payer is given the opportunity to only resubmit payment if legally responsible to do so. When this occurs, the first payee is authorized to receive a refund.

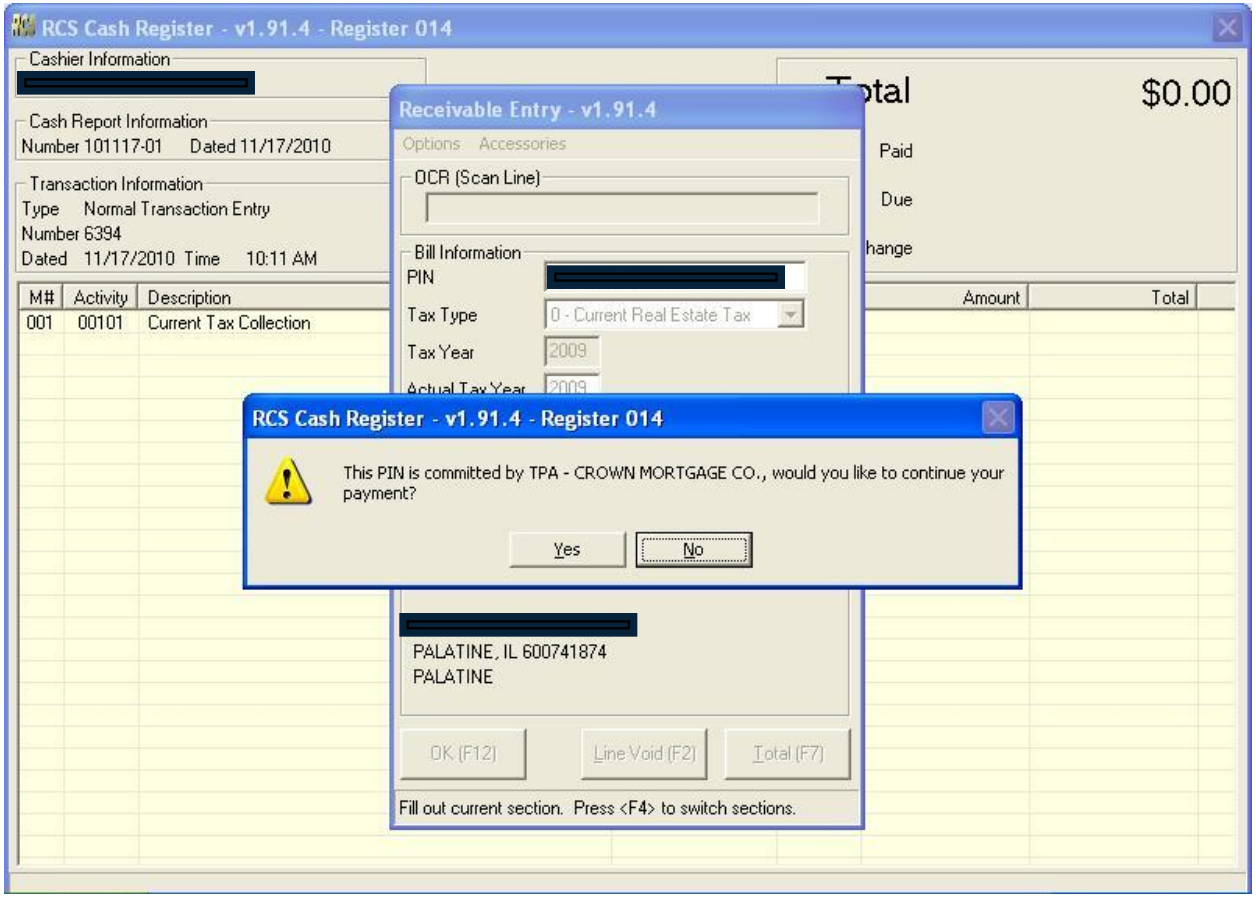
AUTOMATION HIGHLIGHTS – STOPS

Mail payments are compared against a daily STOPS file during processing at Lockbox. Payments identified as STOPS are compared to the internal PIN Research System to verify prior payment or commitment.



AUTOMATION HIGHLIGHTS – STOPS

Taxpayers attempting to make an in-person property tax payment at the Treasurer's Office or Chase Bank location are alerted if the taxes were paid or are committed to be paid. The below screen shot displays the message that appears within the Treasurer's collection system.



AUTOMATION HIGHLIGHTS – STOPS

Taxpayers attempting to make an online property tax payment at www.cookcountytreasurer.com are alerted if the taxes were paid or are committed to be paid by a mortgage company.

AUTOMATION HIGHLIGHTS – STOPS

Taxpayers who hold mortgages with certain Third-Party Agents (TPA) received notification on their tax bill of a TPA's pre-commitment to pay property taxes. The message appears within the 'Important Payment Messages' box on the coupon portion in an effort to prevent duplicate payments being made to the PIN.

AUTOMATION HIGHLIGHTS – AUTOMATED NAME CHANGE SYSTEM

The Treasurer's Office created an Automated Name Change System that automatically updates a taxpayer's name and address when a Transfer Declaration is filed with the Cook County Recorder of Deeds. The Treasurer's Office receives and uploads name and address data that is entered by the Recorder's Office staff. This cooperation between governmental agencies improves efficiencies for taxpayers by eliminating the need for redundant forms and duplicate data entry.

AUTOMATION HIGHLIGHTS – AUTOMATED NAME CHANGE SYSTEM

STAT FACT:

The Treasurer's Office has electronically received over 595,000 name changes since July 2005 as a result of the collaboration with the Recorder of Deeds.

Calendar Year	Quantity
2013*	56,334

AUTOMATION HIGHLIGHTS – AUTOMATED TAX SALE

The Treasurer's Office automated the traditional outcry Annual Tax Sale auction to an online auction in the summer of 2008. Process of tax buyer registration, collateral deposits, bidding and payments went from a manually intensive system to an online Internet system.

- Sale previously lasted 20 days; now it takes only four days. Historically a daily auction would require a staff of eight people. The decrease in the duration of days of the sale allows staff to work on other Treasurer's Office projects.

- A computer program selects the winning bidder instead of a human auctioneer, thereby eliminating any human judgment and ensures that the awarding of parcels is completely random.

- Registration, collateral deposits and payments are completed online which all contribute to creating a "virtual office" that has less reliance on customer service and cashiering personnel.

Recorder of Deeds	1.2%	**754**
Other	3.5%	**2,155**
Total	100.0%	**62,079**

*Through September 30, 2013.

PROPERTY TAX REFUNDS

STAT FACT:

Over 920,000 property tax refunds have been issued by the Treasurer's Office in the last six years for various refund types such as:

- Exemption or assessment Certificates of Error directed by the Cook County Assessor
- Illinois Property Tax Appeals Board assessment reductions
- Court-ordered assessment reductions
- Duplicate and Overpayments

Fiscal Year	Quantity
2013*	103,506
2012	180,241
2011	155,594
2010	171,163
2009	162,647
2008	148,738
Total	**921,889**

*Through September 30, 2013.

THIRD-PARTY AGENT (TPA) PAYMENTS

STAT FACT:

Banks, mortgage companies and title companies utilize two bulk payment methods to pay property taxes. One system is a wire payment system and the other permits payment through an ACH debit. Nearly 15 million payments totaling almost $40 billion have been made since August 2003.

Tax Year	Quantity	Dollar Amount
2012*	1,534,206	$ 4,599,652,078
2011	1,572,864	$ 4,548,567,553
2010	1,573,542	$ 4,525,668,098
2009	1,561,694	$ 4,357,810,062
2008	1,538,741	$ 4,180,159,051
2007	1,473,584	$ 3,899,020,420
2006	1,373,801	$ 3,514,821,738
2005	1,291,410	$ 3,106,617,529
2004	1,253,555	$ 2,873,612,587
2003	1,238,729	$ 2,621,405,164
2002	587,796	$ 1,209,770,282
Total	**14,999,922**	**$ 39,437,104,562**

*Through September 30, 2013.

INTERNET (ONLINE) TAX PAYMENTS

STAT FACT:

In March 2002, the Treasurer's Office introduced online e-check payments for on-time payments. In August 2005, the program was expanded to include late payments. In January 2007, it was reprogrammed to include current and prior year payments.

The Treasurer's Office began collecting credit card payments for on-time payments In July 2012. 21,469 credit card payments have been made to date.

TAX YEAR	# of E-CHECK PAYMENTS	% of INCREASE OVER THE PREVIOUS TAX YEAR
2012*	302,199	
2011	339,438	5.2%
2010	322,734	9.2%
2009	295,638	8.3%
2008	273,083	13.3%
2007	240,931	16.9%
2006	206,067	33.0%
2005	154,950	60.8%
2004	96,362	42.1%
2003	67,828	70.4%
2002	39,794	137.7%
2001	16,738	
Total	2,355,762	

*Through September 30, 2013 (please note taxpayers may continue to pay 2012 taxes online using e-check).

COMMUNITY BANK PAYMENTS

STAT FACT:

Cook County taxpayers may visit one of the participating local community banks to pay taxes by direct debit from a checking or savings account with that bank.

Tax Year-Installment	# of Community Bank Branches	# of Payments
2012-2*	194	3,515
2012-1	194	3,545
2011-2	209	3,620
2011-1	208	3,371
